S 970	Continued From Page 1 call button. The licensed staff pager triggered at 5 minutes. Administrative nurse D on 8/9/13 at 2:40 PM stated the call light system notified the charge nurses and the Director of Nursing when a call light was not answered within 4 minutes. The facility's wireless call system did not escalate to additional staff within 3 minutes.	S 970			
S 972 SS=F	26-40-302 (H) P E - Nursing facility support systems (H) The nursing facility ' s preventative maintenance program shall include the testing of the call system at least weekly to verify operation of the system. This Requirement is not met as evidenced by: The facility identified a census of 85 residents. Based on observation, record review, and staff interview, the facility failed to implement a weekly preventative maintenance program for the wireless call system. Findings included: - Observation on 8/6/13 while checking call lights on the nursing unit between 11:40 A.M. to 12:00 P.M. revealed 2 bathroom call lights on the 100 hall did not alert on the pager or above the doorway. Maintenance staff was made aware of the call light not functioning. Observation on 8/8/13 approximately 10:59 A.M. during the environmental tour, revealed one of the two bathroom call lights from 8/6/13 did not light above the residents' doorway or on the pager.
